## Feature Highlights

### Freshen-up Clothes without Washing

The Steam Refresh® cycle uses steam to reduce odors and relax wrinkles for ready-to-wear convenience right out of the dryer in just 20 minutes.

### No More Static Cling

The Static Shield option virtually eliminates static cling and the need for dryer sheets by adding steam to the load.

### Helpful Lint Build-up Reminders

The Check Vent Sensor helps keep dryer running safely and efficiently by alerting you when the dryer is not moving enough air from the dryer to the outside.

### Say Goodbye to Wrinkles

The Wrinkle Guard® option helps to prevent wrinkles from setting in by tumbling clothes intermittently after the cycle is complete.

### Less Bending with Convenient Storage

Pedestal Drawers offer a convenient place to store laundry products and raise the washer and dryer up to a convenient height, making loading and unloading easier.
