Feature Highlights

Designed to Give You More Space

Thanks to the slim in-door ice maker, you have 100% use of the top shelf with the added convenience of more door bin storage.

Space-saving Design is Up and out of the Way

Space-saving design is recessed into the ceiling of the refrigerator so you have more usable top shelf space.

Innovative Crisper that Really Works

The AirTight Crisper locks in freshness to help retain moisture in veggies longer when compared to a standard humidity crisper bin – so you'll throw away less food.

Fresh, Clean Air

The CleanFlow™ air filter circulates air through a charcoal filter to fight food odors and helps keep the refrigerator smelling fresh.

Say Hello to Freshness & Goodbye to Freezer Burn

The dual evaporator system cools the refrigerator and freezer separately to keep everything at ideal temperatures and humidity so lettuce won't wilt and the freezer stays frozen.

Gourmet Storage All the Way Across

The full-width Gourmet Pantry Drawer features digital controls that let you choose Meat, Deli or Produce so you can create the right environment for freshness.

Broke after 3 weeks

Looks very good, very convenient, although, because it is a counter depth, is small. Really liked the fact that the freezer drawers are removable for cleaning. Rate it one star because it broke down after only three weeks - the freezer just stopped working. I was able to exchange it and now wait for this one to brake. Bought all matching appliances and the double oven did not work from the start. Just imagine how disappointed I am after shelling out that much money for this appliances

As close to perfect as I found...

I shopped 5-months to buy a new refrigerator after spending \$800 to fix my GE one to no avail. After conducting much research, on line and otherwise, I bought Kenmore Elite's 23.5 cu. ft. Counter-Depth Grab-N-Go and have never looked backed. While 23.5 cu. ft., it has more usable room inside than any other refrigerator I considered of it's same size. It's appearance, quality and workmanship is second to none in my view. Ergonomics are also second to none. Although not a show stopper for me every considered, my only recommendation for improvement is to make the freezer door easier to open and shut. The door doesn't open smoothly and I have to pull it relatively hard for it to open. Easy for me so not a show stopper, but this possibly may be an issue for others. With this and all other Kenmore Elite products I'm bought, I highly recommend buyers read the directions before using. It's a must and will eliminate many potential problems. A no-brainer, but I believe the problems many people report on this site are the result of just that...not scrupulously reading and carefully following directions before first using products and after.

If I could love an object it'd be this!

We wanted a new counter deep refrigerator and I went just to "look". I saw this one and brought my husband to show him. He wanted the freezer on bottom and French doors. I just wanted the bottom freezer and didn't care about doors. This one was the right size and had what we wanted PLUS some! The access door is SO convenient! I like the way it's organized with the different drawers. The alarm for the doors being left open is nice. The three drawer freezer is ingenious, but is a little harder to open. As for the small ice cubes and making capacity, there's a bucket you can fill to help with stocking, but if more is needed then buying some will be an inconvenience, but the pluses outweigh that inconvenience and the smaller cubes fit into the drink bottles SO easily! Mechanically, no problems thus far and I PRAY we didn't get on of the lemons. Stainless steel is harder to clean, but, again, SO worth it! LOOKS, SOUNDS and WORKS GOOD!

Overall good

Love the look and the grab-n-go door, tons of space, and its very quiet, the biggest complaint I have is that the lower freezer door is extremely hard to open - you need to yank it with both hands before it jolts free, I have calluses from trying to open it.

Great so far

This is a lot of money for a refrigerator, but and frankly I didn't expect to like it nearly as much as I do. It is a hit with the family overall. I also really expected to be bursting out of this thing, but it has absorbed everything from the old 26 cu/ft. unit easily. Net: after a month, we're really happy. Positives: - I thought the Grab-N-Go was gimmicky, but my wife liked the idea and she was right: it is easily my favorite single feature. - The water dispenser is tall enough to accept our pitcher. - Very flexible and efficient interior space, and it is well-lit. Easy to get to everything. - The freezer holds a lot, and pizza's, etc. are much easier than before. Easy to find stuff. - Ice cubes are a nice shape and small. Negatives: - You have to fairly firmly push the Grab-N-Go door to close it - Stainless steel shows every smudge and finger print. (Welcome to stainless steel :) - Seems a bit louder than the old one, but not a big deal - The freezer is a little hard to open - Surprisingly deep for counter-depth, but fine. Wishes: - Would like to have a choice for black cabinet instead of gray. We're getting used to it. - Would love a 36 inch-wide version - Wish there were some handle options. We'd rather have bar handles vs . the bladed banana Net: we really like this thing a lot. In the short time we've had it a new bar has been set for what we expect out of a refrigerator. We replaced a 14-year-old Kenmore Elite with this one - I'm hoping for reliability.

I would recommend this product to a friend.
